

NSF Program Director “Office Hours”

School of Integrated Science & Humanity

The purpose of this office hours opportunity is to assist any faculty member (in any discipline) at FIU that is interested in applying for research funding at the National Science Foundation (NSF).

Dr. Kelsey Cook will be available to answer questions related to navigating through the opportunities at the National Science Foundation, how a proposal is reviewed, and how decisions are made, as well as common errors found in applications, and strategies for preparation of research proposals. Small group and individual meeting opportunities are available for faculty to have their questions answered. To learn more about Dr. Cook, please click here:
