

FIU Interdisciplinary Nuclear Program & College of Arts & Sciences

2017 Nuclear Research Fellowships

A unique opportunity for outstanding M.S. and Ph.D. graduate students who pursue nuclear-related projects to obtain research assistantship support from the US Nuclear Regulatory Commission (NRC)

- Prerequisites:**
- 1) Full-time graduate student status or complete FIU application to our new Radiochemistry Ph.D. track processed through Univ. Grad. School (for incoming students)**
 - 2) GPA of 3.3 or higher**
 - 3) US Citizenship or Permanent US Residence**

Students with interest in nuclear & radiochemistry careers are encouraged to apply

Students who accept this research fellowship are obligated to sign the NRC fellowship program service agreement that requires either 6 months of nuclear-related employment per year of NRC support with a Federal or State Agency, a DOE lab, or company. See www.nrc.gov/about-nrc/grants/scholarship-svc-agreement.pdf

Deadline for applications: February 1st, 2017, 6 PM

How to apply: Submit 1-4 as one package (electronically or in paper):

- 1) Personal statement of research interests (for incoming students) or 2-3 page description of research project and progress and its program relevance (for current M.S. and Ph.D. graduate students).**
- 2) Current Undergraduate and Graduate Transcripts**
- 3) CV/Resume including Publication/Presentation List**
- 4) Latest Annual Progress Evaluation and Mentoring Form (if applicable)**
- 5) Three confidential letters of recommendation to the address (or email):**
